

Silver Tree Primary Mathematics Medium Term Plan

At Silver Tree Primary we follow the following medium term plan to ensure a broad, balanced mathematics curriculum. We follow this plan regardless of the year group.

Specific job objectives delivered are based upon the findings of pre assessments units to determine starting points for each child/group of children.

Interim half termly assessments- determine intervention programmes.

Week 1 – Number (counting ordering and place value)

Week 2 – Geometry (properties of shape including angles, rotation and lines)

Week 3 – Number (addition including word problems, using and applying/investigations/games)

Week 4 – Measurement (time including analogue, 12, 24 hour clocks and roman numerals)

Week 5 – Number (subtraction including word problems, using and applying/investigations/games)

Week 6 – **Assessment**

Week 7 – Measurement (measure compare add and subtract & measure, mass & length and perimeter) Y2,4 & 6/ **As required/Assessment 1,3 & 5**

Week 8 – Measurement (measure compare add and subtract & measure, mass & length and perimeter) y1,3 & 5 **As required/Assessment y2,4 & 6.**

Week 9 – Statistics (interpreting data and solving problems based on data)

Week 10 – Geometry (position and direction)/ **As required** for Year group where no objectives relevant

Week 11 – Number (multiplication and division)

Week 12 – Number (multiplication and division)

Week 13 – **As required/Assessment**

Week 14 – Number (Fractions of numbers)
