Statement of intent

At Silver Tree Primary School and Nursery, we greatly value the importance of the early years foundation stage (EYFS) in providing a secure foundation for future learning and development.

This policy has been developed in conjunction with the relevant DfE guidance and legislation to ensure that each child has a happy and positive start to their school life, in which they can build a foundation for a love of learning.

"The Early Years Foundation Stage (EYFS) sets the standards that all early years providers must meet to ensure that children learn and develop well and are kept healthy and safe. It promotes teaching and learning to ensure children's 'school readiness' and gives children the broad range of knowledge and skills that provide the right foundation for good future progress through school and life.

The EYFS seeks to provide:

- Quality and consistency in all early years settings, so that every child makes good progress and no child gets left behind.
- A secure foundation through learning and development opportunities which are planning around the needs and interests of each individual child and are assessed and reviewed regularly.
- > Partnership working between practitioners and with parents and/or carers.
- > Equality of opportunity and anti-discriminatory practice, ensuring that every child is included and supported.

1. Aims

This policy aims to ensure:

- That children access a broad and balanced curriculum that gives them the broad range of knowledge and skills needed for good progress through school and life
- Quality and consistency in teaching and learning so that every child makes good progress and no child gets left behind
- A close working partnership between staff and parents and/or carers
- Every child is included and supported through equality of opportunity and antidiscriminatory practice

2. Legislation

This policy is based on requirements set out in the new <u>statutory framework for the Early Years Foundation Stage (EYFS)</u> that applies from September 2021.

3. Structure of the EYFS

The classroom is organised in such a way that children can explore and learn in a safe environment. There are two classrooms, which are joined by an internal door.

We have two separate spaces for carpet time and whole class teaching where Nursery and Reception children access their own space. However, during independent learning and exploration time, the doors are open and the children can access all learning spaces.

Children have access to an enclosed outdoor play area, and daily outdoor activities are planned, unless circumstances, such as the weather, would make outdoor activity inappropriate and unsafe.

There are three toilets available to the EYFS, and there is a cupboard containing a supply of towels and spare clothes in the Reception Classroom.

4. Curriculum

Our early years setting follows the curriculum as outlined in the latest version of the EYFS statutory framework that applies from September 2021.

The EYFS framework includes 7 areas of learning and development that are equally important and inter-connected. However, 3 areas known as the prime areas are seen as particularly important for igniting curiosity and enthusiasm for learning, and for building children's capacity to learn, form relationships and thrive.

The prime areas are:

- · Communication and language
- Physical development
- Personal, social and emotional development

The prime areas are strengthened and applied through 4 specific areas:

- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

4.1 Planning

Staff plan activities and experiences for children that enable children to develop and learn effectively. In order to do this, staff working with the youngest children are expected to focus strongly on the 3 prime areas.

Staff also take into account the individual needs, interests, and stage of development of each child in their care, and use this information to plan a challenging and enjoyable experience. Where a child may have a special educational need or disability, staff consider whether specialist support is required, linking with relevant services from other agencies, where appropriate.

In planning and guiding children's activities, staff reflect on the different ways that children learn and include these in their practice.

4.2 Teaching

Each area of learning and development is implemented through planned, purposeful play, and through a mix of adult-led and child-initiated activities. Staff respond to each child's emerging needs and interests, guiding their development through warm, positive interaction.

As children grow older, and as their development allows, the balance gradually shifts towards more adult-led activities to help children prepare for more formal learning, ready for year 1.

5. Health and safety

- ➤ A first-aid box is located in the Reception and Nursery classroom.
- Only medicine prescribed to a child by a doctor, dentist, nurse or pharmacist will be administered.
- The school's Administering Medication Policy outlines the procedures for administrating medicines.
- ➤ The EYFS lead will report any accident or injury involving a child to their parents on the day it occurs, and any first-aid treatment administered to a child will be reported to their parents.
- Accidents and injuries will be recorded in an accident book, located in KS2 corridor.
- ➤ The headteacher will report any serious accident, illness, injury, or death of a child whilst in the school's care to Ofsted as soon as is reasonably practicable, but within 14 days of the incident occurring. Local child protection agencies will also be notified.
- > The school has a Fire Evacuation Plan in place.

6. Assessment

At Silver Tree Primary School and Nursery, ongoing assessment is an integral part of the learning and development processes. Staff observe pupils to identify their level of achievement, interests and learning styles. These observations are used to shape future planning. Staff also take into account observations shared by parents and/or carers.

When a child is **in Nursery**, staff review their progress and provide parents and/or carers with a written summary of the child's development in the 3 prime areas. This 'progress

check' highlights the areas in which a child is progressing well and the areas in which additional support is needed.

Within the first 6 weeks that a child **starts reception**, staff will administer the Reception Baseline Assessment (RBA).

At the **end of the EYFS**, staff complete the EYFS profile for each child. Pupils are assessed against the 17 early learning goals, indicating whether they are:

- Meeting expected levels of development
- Not yet reaching expected levels ('emerging')

The profile reflects ongoing observations, and discussions with parents and/or carers. The results of the profile are shared with parents and/or carers for their child.

The profile is moderated internally (referring to the Development Matters <u>guidance</u>) and in partnership with other local schools, to ensure consistent assessment judgements. EYFS profile data is submitted to the local authority.

7. Working with parents

We recognise that children learn and develop well when there is a strong partnership between staff and parents and/or carers.

Parents and/or carers are kept up to date with their child's progress and development. The progress check and EYFS profile helps to provide parents and/or carers with a well-rounded picture of their child's knowledge, understanding and abilities.

Each child is assigned a key person who helps to ensure that their learning and care is tailored to meet their needs. The key person supports parents and/or carers in guiding their child's development at home. The key person also helps families to engage with more specialist support, if appropriate.

8. Safeguarding and welfare procedures

We promote good oral health, as well as good health in general, in the early years by talking to your child and sharing, fun interactive activities. We cover:

- The effects of eating too many sweet things
- > The importance of brushing your teeth

We follow <u>statutory guidance</u> for safety around supervised tooth brushing.

The rest of our safeguarding and welfare procedures are outlined in our safeguarding policy.

9. Staffing

The school adopts the following staffing ratios:

- For children aged three and over: Where a staff member with qualified teacher status (QTS), early years professional status, or another suitable level 6 qualification is working directly with the children, there is one member of staff for every 13 children, and at least one other member of staff holds a full and relevant level 3 qualification.
- Where a member of staff does not hold QTS, early years professional status, or another suitable level 6 qualification, there is one member of staff for every eight children. At least one staff member holds a full and relevant level 3 qualification, and at least half of all other staff hold a full and relevant level 2 qualification.

- > Only under exceptional circumstances, and where the quality of care and safety of children is maintained, will changes be made to the ratios.
- > Parents will be informed about staffing arrangements, and, when relevant and practical, will be involved in staffing arrangement decisions.

10. Monitoring arrangements

This policy will be reviewed and approved by Helen Ray- Early Years Leader, every 2 years.

At every review, the policy will be shared with the governing board.
